Louis :
Serbia is an european country, near Italy (look at the map). Serbian population in the world is about 13.000.000 (billion), and only 9.000.000 (billion) live in Serbia.
So, there are 4.000.000 (billion) Serbian people living abroad, mainly in :
_U.S.A : 1.000.000 (billion)
_Canada : 250.000
_Germany : 800.000
_Australia : 300.000
_U.K : 80.000
_France : 120.000
and Australia : 130.000

Serb immigration is due to several factors at many periods of history :
_from 1800 to second world war, migrants went to Australia to find jobs and a better life ;
_during second war, we can explain migrations for political and human reasons ;
_by the end of the 20th Century, from 1990 to 1999, the three yougoslavian wars created a big flow of migrnats ;
_today, Serb people move to Australia for different reasons :
study, find jobs, start a new life.

Questions :
_How many are Serbian people in the world ? How many in Australia today ?
_According to you, what is the principal reason of serbian immigration in Australia ?
